

# DLT 300 Hi SERIE

UNINTERRUPTIBLE  
POWER SUPPLY  
100-300kVA

True On-line  
3 Phase Input  
3 Phase Output  
100-300 kVA

UPS & Voltage Stabilizers

DELTA 300 Hi series UPS, PWM controlled, IGBT technology, microcontroller controlled, sinusoidal waveform, ONLINE topology and parallel configurable devices. Advanced communication system supports many communication protocols and brings remote control advantage of the UPS.

Transformer  
Based  
Technology

## TECHNICAL SPECIFICATIONS

- 3 phase in / 3 phase out
- Output 100-300 kVA
- Output isolation transformer
- Up to 91% efficiency
- Static by-pass
- External REPO switch input
- 5 control buttons iLCD alphanumeric display brings detailed monitoring of measured parameters.
- 3 mikrocontrollers for rectifier ,main control system, parallel management
- 128 events alarm memory (4000 alarms)
- Clock and calender (battery supported)
- Advanced battery management controls charge system battery test
- High performance at nonlinear loads
- Dry contact simulation function
- Dial-up modem connection and setup
- Custom input voltage and frequency ranges
- International standards compatibility
- SNMP(Simple Network Management Protocol) communication
- 2 years warranty
- 10 years spare parts support
- ISO9001, ISO14001, CE ,GOST certification
- Optional MODBUS adaptor.

### Technical Specifications

| MODEL                                       | DLT 3100   | DLT 3120 | DLT 3160                | DLT 3200 | DLT 3250               | DLT 3300 |
|---|--|----------|-------------------------|----------|------------------------|----------|
| <b>Power</b>                                | 100 kVA  | 120 kVA  | 160 kVA                 | 200 kVA  | 250 kVA                | 300 kVA  |
